

I. LICENSE AGREEMENT

JB2008 Jacchia-Bowman 2008 empirical thermospheric density model

This is a legal agreement between you and SpaceWx, a division of Space Environment Technologies (collectively referred to herein as "SpaceWx"), covering your use of the JB2008 Jacchia-Bowman 2008 empirical thermospheric density model. Be sure to read the following agreement before using the software. By downloading, installing, compiling, or using the software, you indicate your unconditional acceptance of the terms of this agreement.

IF YOU DO NOT ACCEPT THE TERMS OF THIS AGREEMENT, DO NOT USE THE SOFTWARE AND DESTROY ALL COPIES OF IT.

1. Definitions

"Software" means the JB2008 model in source code and/or executable form, the solar and geomagnetic index data files distributed with it by SpaceWx (including, but not limited to, the SOLFSMY.TXT and DTCFILE.TXT files and any successor or updated index files), and all related documentation.

"Outputs" means the thermospheric mass densities, exospheric and local temperatures, and any other values you compute by running the Software, together with plots, tables, and analyses derived from those values.

2. Copyright

This copyrighted software is distributed by SpaceWx and is protected by United States copyright laws and international treaty provisions. Therefore, you must treat the software like any other copyrighted material (e.g., a book or musical recording).

3. Grant of License

Subject to the terms of this agreement, SpaceWx grants you a non-exclusive, non-transferable, revocable license to install, compile, and use the Software, and to call it from your own software applications, solely for your own research, educational, engineering, and internal purposes.

4. Commercial Distribution

Commercial distribution of the software is prohibited without permission of SpaceWx. We are more than happy to allow you to distribute our software, but you must first have a license to do so. Contact SpaceWx for details on obtaining a license. This includes embedding the Software, or any portion of it, in a product, library, toolkit, or service that is sold, licensed, or otherwise provided to third parties.

5. Restrictions

You may not rent, lease, sell, sublicense, or otherwise transfer the software to third parties. You may not modify, adapt, or translate the software except to the extent necessary to compile it and to interface it with your own software for the uses permitted in Section 3. You may not distribute any modified version of the software, and you may not represent results produced by a modified version as JB2008 results. You may not reverse engineer, decompile, or disassemble any portion of the software provided

only in executable form. If you violate any part of this agreement, your right to use this software terminates automatically and you then must destroy all copies of this software in your possession.

6. Solar and Geomagnetic Index Data Files

The solar and geomagnetic index data files are provided for use with the Software. You may not redistribute these data files, in whole or in part, as standalone data products or as part of any commercial product or service without the written permission of SpaceWx. SpaceWx may update, revise, or discontinue these data files at any time, and SpaceWx does not guarantee their continued availability or their timeliness for any particular purpose.

7. Use and Publication of Outputs

You may use, publish, and share Outputs in scientific and engineering publications, reports, theses, and presentations, provided that you include the acknowledgement and citation set forth in the JB2008 Publication Acknowledgement (Notice to Users) that accompanies the Software. Redistribution of Outputs as a commercial data product or service, or the systematic redistribution of Outputs as a substitute for the Software itself, requires a separate license from SpaceWx.

8. Disclaimer of Warranty and Limitation of Liability

THE SOFTWARE AND RELATED DOCUMENTATION ARE PROVIDED "AS IS" AND WITHOUT WARRANTY OF ANY KIND. SPACEWX EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. ANY WRITTEN OR ORAL INFORMATION OR ADVICE GIVEN BY SPACEWX OR ITS AGENTS, DISTRIBUTORS, OR EMPLOYEES SHALL NOT IN ANY WAY BE CONSTRUED AS GRANTING OR CREATING A WARRANTY. UNDER NO CIRCUMSTANCES SHALL SPACEWX BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFITS, INFORMATION, GOODWILL, OR SPACECRAFT OR MISSION ASSETS) THAT RESULT FROM THE USE OR INABILITY TO USE THE SOFTWARE, ITS OUTPUTS, OR RELATED DOCUMENTATION, EVEN IF SPACEWX HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

JB2008 is an empirical model whose densities carry inherent uncertainties. You are solely responsible for determining the suitability of the Software and its Outputs for your application, including, without limitation, orbit determination and prediction, conjunction assessment and collision avoidance, maneuver planning, and reentry prediction. The Software is not intended to be the sole basis for any decision affecting human safety or the safety of spacecraft.

9. Export Control

You agree to comply with all applicable United States export control and economic sanctions laws and regulations, including the Export Administration Regulations and, where applicable, the International Traffic in Arms Regulations, and with the laws of any other applicable jurisdiction. You may not export, re-export, or transfer the Software or Outputs to any destination, entity, or person prohibited by those laws.

10. Governing Law and Severability

This Agreement shall be governed by the laws of the State of California. If for any reason a court of competent jurisdiction finds any provision of this Agreement, or portion thereof, to be unenforceable, that provision of the Agreement shall be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remainder of this Agreement shall continue in full force and effect.

11. U.S. Government Users

If you are a U.S. Government user, the software and documentation are provided with RESTRICTED RIGHTS as defined in Federal Acquisition Regulation (FAR) 52.227-14. To the extent the Software qualifies as commercial computer software, it is licensed to U.S. Government end users only with those rights granted to all other users under this Agreement, consistent with FAR 12.212 and Defense Federal Acquisition Regulation Supplement (DFARS) 227.7202. Use, duplication, or disclosure by all users is subject to the restrictions above. The manufacturer is SpaceWx. Nothing in this Agreement limits any rights the U.S. Government may hold under a separate contract, grant, or other funding agreement under which portions of the Software were developed.

12. SpaceWx and Space Environment Technologies

SpaceWx is a division of Space Environment Technologies. All rights of SpaceWx may be exercised or enforced by Space Environment Technologies. For licensing inquiries, contact SpaceWx through <http://SpaceWx.com>.
